

Freelancer OS

Your complete business system is ready.

Access Your Template

Click the link below, then click "Duplicate" in the top-right corner to copy it to your Notion workspace.

<https://irradiated-cause-ab8.notion.site/Freelancer-OS-Complete-Business-Template-3669e306b520814bad6ac295d120a9dc>

Quick Start (5 minutes)

1. Click the template link above
2. Click "Duplicate" in Notion (top-right corner)
3. Choose your workspace
4. Browse the sample data to understand the structure
5. Clear sample data, add your real clients and projects

What's Inside

Clients CRM

Track every lead, active client, and past client. Log revenue, contact info, and notes.

Projects

All projects linked to clients. Status, budget, deadline, and priority in one view.

Tasks

Daily task list linked to your projects. Prioritize by urgency and due date.

Invoices

Track drafts, sent, paid, and overdue invoices. Know exactly what you are owed.

Time Log

Log billable hours per project with automatic hourly rate calculations.

Dashboard

Weekly snapshot: active projects, hours worked, invoices sent, revenue collected.

Pro Tips

- Relations are pre-configured: click any project to see its client, tasks, and invoices.
- Use the Kanban view in Projects to visualise your pipeline at a glance.

- The Time Log auto-calculates earnings once you set an hourly rate on each project.
- Tag clients as "Lead" to track your sales pipeline before they go active.
